

# VISTA has more providers than ever

## Look How We've Grown!

The **VISTA** network of providers continues to grow and is now bigger than ever! VISTA regularly reviews our network to ensure that we have the physicians and specialists necessary to meet the health care needs of our members. We look at location and hospital affiliation as well as evaluate the care that doctors provide to their patients before adding them to our network.

Below are our latest additions for the month of September.
